

Senior International Tax Manager

Insurance

Brief Job Description

Role will involve the centralisation, management and coordination of US tax reporting, compliance and risk for European subsidiaries of a major US Multinational. A key focus of the role will be coordination of capital management and repatriation strategies, review and coordination of tax provisions and, roll out and standardisation of tax reporting software.

Requirements for this Role

Candidates should be tax qualified with a minimum of seven years post qualification experience working in a multinational advisory role with a Big4 Tax practice or in house with a large multinational. Knowledge of tax reporting under US GAAP would be highly advantageous. Excellent opportunity for rapid progression.

About Our Client

Our Client is a subsidiary of a major US multinational.

Remuneration

Remuneration will be very attractive commensurate with experience.
