Purpose of continuous assessment

- Provide students with feedback on how they performed in an Advanced Personal Taxes exam before the end of term examination
- Assess skills learnt in the research workshops

A **sample paper** will be available in the week commencing 14 December.

Impact on end of term exam:

- Students must have sat continuous assessment before presenting for the summer/autumn exams
- It is not necessary to have passed the continuous assessment before attempting the summer/autumn exams
- Summer/autumn exam is now 85% of total Advanced Personal Taxes mark
- The summer/autumn exam is 3.5 hours long and students are required to answer 5 out of 6 questions
- Topics covered in the continuous assessment may also be examined in the end of term exam
- Marks from continuous assessment and the end of term exam will be combined to determine if a student has passed (obtained a mark of 50% or higher) or failed Advanced Personal Taxes.

Students should note that they may only attempt continuous assessment once per academic year in either the January sitting (for the summer or autumn examinations) or in July (for the autumn examinations only).

Registration for continuous assessment and examinations

Students should register for summer examinations immediately (as continuous assessment takes place in January). Students should register for the autumn examinations no later than 14 May 2010. Exam entry forms can be downloaded from the website.
